**DETAILED ACTION**

***Election/Restrictions***

1. During a telephone conversation with Mr Michael Davis on 3/19/2007 a provisional election was made with traverse to prosecute the invention of Group I, claim1-18. Upon further review the examiner has decided to withdraw the restriction requirement because the inventions have unity of invention.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are replete with language that renders them confusing and indefinite.

For example, the phrase “ in this alkyl, optional hydrogen may be substituted with fluorine and optional -CH<sub>2</sub>-...” is confusing. Also the phrase “ and in alkylene in this arylalkyl.... “ is confusing. The language is used through out the claims.

Applicant is respectfully requested to review all the claims and amend said claims to clear up this matter.

***Allowable Subject Matter***

Art Unit: 1621

4. Claims 1-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: The instant claims compounds which require a halogenated sulfonyl group are not taught or suggested in the prior art of record. The novelty lies in the use of a halogenated sulfonyl group. The prior art provides no motivation to add a halogenated sulfonyl group to structurally similar compounds.
